 - invisible lateral supports that you place in the ground

Your above ground pool has been designed to provide you with years of safe, family fun. This entails that water safety must always be taken into account. When used incorrectly, your above ground swimming pool can be dangerous; above ground pools are shallow, and this makes diving and jumping unsafe. To ensure your above ground pool is used safely, you must observe the safety precautions that are provided to you when you purchase an above ground pool and conform to all local regulations. © Copyright 2014

Blow molded top ledge with internal ribbing system offers optimal liner and wall support.

AVANTGARDE wall pattern, in warm beige tones, brings contemporary style to your backyard entertaining.

When it is hot outside, nothing beats wading in the cool waters of your above ground pool. The **Resin Series** brings you innovative technology and incredible endurance that will win your heart as the ideal fusion of high technology and impeccable style. Resin injection molding is a revolutionary process that eliminates corrosion risks and guarantees long-term dependability. Transform your backyard into an everyday vacation.

Slide-in bottom plates make an installation that is easy and fast, while the double-lock system around the base of the uprights provides increased strength and solidity.
